

Maritime competences in the future - Effects from the Danish Maritime Cluster project

This conference presents the results from the Danish Maritime Cluster project, where maritime organisations and leading universities and knowledge institutions have collaborated in order to develop the competence level in the Danish maritime sector.

During the conference selected partners will present their outcomes on the development of new courses and supplementary training, and how the regional funding has generated possibilities to fulfill efforts which would not have been possible otherwise. Furthermore, the process of how to create closer collaboration between maritime educations and industry will be presented.

When: 7th of October 2014. 13:00- 16:30

Where: Danske Regioner, Dampfærgevej 22, 2100 Copenhagen Ø

Moderator: Steen Sabinsky, Director Maritime Development Center of Europe
